 925 North Todd Avenue • Azusa, California 91702 USA  
 Phone (626) 633-0294 Fax (626) 633-0791

**SAFETY DATA SHEET**

**5/20 UW Epoxy Putty Stick**

**SECTION 1: CHEMICAL PRODUCT AND COMPANY IDENTIFICATION**

**PRODUCT NAME:** 5/20 UW Epoxy Putty Sticks  
**MFR'S NAME:** Air Logistics Corporation, 925 North Todd Avenue, Azusa CA 91702  
**EMERGENCY PHONE:** 800.424.9300 (CHEMTREC) **GENERAL INFORMATION:** 626.633.0294  
**USE OF THE SUBSTANCE:** Epoxy-based filler material used with AquaWrap™ and PowerSleeve™ products in the repair of pipelines or other structures in underwater installations.

**SECTION 2: HAZARDS IDENTIFICATION**

**OSHA/HCS status:** This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200).

**GHS Label Elements:**

**Hazard Pictograms:**

**Signal Word:** Warning!

**Hazard Statements and GHS Classifications:**

H315, H319	Causes skin and eye irritation.	Category 2
H 317	May cause an allergic skin reaction.	Category 1

**Precautionary Statements:**

**Prevention:** P264 Wash hands thoroughly after handling.  
 P270 Do not eat, drink or smoke when using this product.  
 P280 Wear protective gloves, clothing, and eye/face protection.

**Responses:** P301+P312 IF SWALLOWED: Call POISON CENTER and/or doctor if you feel unwell.  
 P302+P352 IF ON SKIN: Wash with plenty of soap and water.  
 P333+P313: If skin irritation or rash occurs, get medical attention.  
 P362+P364: Take off contaminated clothing and wash it before reuse.  
 P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing.  
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 P337+P313: If eye irritation persists: Get medical attention.  
 P391: Collect spillage.

**Storage:** P403+P233: Store in a well-ventilated place. Keep containers tightly closed.  
 P405: Store in a secured area.

**Disposal:** P501: Dispose of contents and containers in accordance with all local, regional and international regulations.

**Other Hazards:** No additional information is available.

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

**Substance/Mixture:** Mixture.

Ingredient	% by WT	CAS #	67/548/EEC	Regulation (EC) 1272/2008 (CLP)
Bisphenol-A Epoxy Resin (Epichlorhydrin)	5-10%	25068-38-6 (US) 25085-99-8 (EC)	No Data Available.	No Data Available.
Phenol	≤1%	108-95-2		
Crystalline silica, non-respirable	<1%	14808-60-7		

**Occupational Exposure Limits, if available, are listed in Section 8.**

Other ingredients are considered trade secrets.

### SECTION 4: FIRST AID MEASURES

**Description of necessary first aid measures:**

- General** Get medical attention immediately for any person who is having trouble or not breathing, or any unconscious person. Provide oxygen or artificial respiration to a person if they have trouble breathing. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Place an unconscious person in a recovery position, maintain an open airway and loosen tight clothing.
- Inhalation** Remove victim to fresh air and keep warm and at rest in a position comfortable for breathing. Get medical attention. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.
- Skin Contact** Remove contaminated clothing and shoes. Wash the affected area with plenty of soap and water until no evidence of the chemical remains. Launder clothing and clean shoes before reuse. Get medical attention if symptoms persist.
- Eye Contact** Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention.
- Ingestion** Wash out mouth with water. Remove dentures, if any. Remove victim to fresh air and keep at rest in a position comfortable for breathing. Give water to drink unless victim feels nauseous. DO NOT induce vomiting. Get medical attention if symptoms persist or are severe.

**Most Important Symptoms/Effects, Acute and Long –Term:**

**Potential Acute Health Effects:**

- Inhalation** Exposure to decomposition products may cause a health hazard. Serious effects may be delayed after exposure. Harmful if inhaled in high airborne concentrations.
- Skin Contact** Causes skin irritation. May cause an allergic skin irritation.
- Eye Contact** No specific data.
- Ingestion** No specific data.

**Overexposure Signs/Symptoms:**

- Inhalation** No specific data.

**Skin Contact** Adverse symptoms may include the following: Irritation and/or Redness.  
**Eye Contact** No specific data.  
**Ingestion** No specific data.

**Indication of Immediate Medical Attention and/or Special Treatment needed:**

**Notes to Physician** Treat symptomatically. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be under medical surveillance for up to 48 hours.

**Specific Treatments** No specific treatment(s).

**See also Toxicological Information in Section 11.**

**SECTION 5: FIRE FIGHTING MEASURES**

**Extinguishing Media** Use media suitable for the surrounding fire. Material will not sustain combustion.

**Unsuitable Media** None known.

**Specific Hazards** No specific fire or explosion hazard.

**National Fire Protection Association (USA) Ratings:**

Health: 2                      Flammability: 1                      Reactivity: 0

**Hazardous Thermal Decomposition Products**

Irritating or toxic substances may be emitted upon burning or decomposition. See **Section 10** for additional information.

**Special Protective Actions for Fire Fighters**

Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

**Special Protective Equipment for Fire Fighters**

Fire Fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in a positive pressure mode.

**SECTION 6: ACCIDENTAL RELEASE MEASURES**

**Personal Precautions, Protective Equipment and Emergency Procedures**

Keep unauthorized persons away. Provide adequate ventilation and avoid breathing vapors or dust. Put on appropriate personal protective equipment (see **Section 8**). If spilled in an enclosed area, ventilate area or use SCBA.

**Environmental Precautions**

Avoid dispersal of material and/or runoff from contact with soil, waterways, drains and/or sewers.

**Methods and Materials for Containment and Cleaning Up (Small or Large Spill)**

Move containers from spill area. Avoid dust generation. Do not dry sweep. Vacuum spilled material with equipment fitted with a HEPA filter and place in a closed, labeled waste container. Dispose of via a licensed waste disposal contractor.

**SECTION 7: HANDLING AND STORAGE**

**Precautions for Safe Handling/Personal Hygiene**

Use appropriate personal protective equipment as per **Section 8**. Keep in the original container or an approved alternative; keep containers tightly closed when not in use. Do not reuse containers.

Keep away from heat, sparks and open flame. Eating, drinking and/or smoking should be prohibited where this material is being used. Workers should remove contaminated clothing/protective equipment and wash hands and face and before entering eating areas and eating, drinking and/or smoking.

### Conditions for Safe Storage, including any Incompatibilities

Store in sealed original containers, or approved alternatives, when not in use in a dry, well-ventilated area. Protect containers from direct sunlight in a dry, cool and well-ventilated area. Do not allow to freeze or exceed 35°C (~100°F). Do not reuse containers.

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### Control Parameters

#### Occupational Exposure Limits

Ingredient	CAS#	Exposure Limits (ACGIH-TWA or ACGIH-STEL)
Bisphenol-A Epoxy Resin (Epichlorhydrin)	25068-38-6 (US)	Not Available or not applicable.
	25085-99-8 (EC)	
Phenol*	108-95-2	
Crystalline silica, non-respirable*	14808-60-7	

\***Note:** Phenol, in high concentrations, is extremely hazardous via any contact. Silica, if airborne and in respirable form is suspected of causing cancer. Both materials have exposure limits established by OSHA (US) and other agencies. As used in this product, both materials are bound into the mixture evenly and represent immaterial amounts under normal use following the protective measures specified in this section.

#### Appropriate Engineering Controls

Good general ventilation should be sufficient to control worker exposure to any airborne contaminants. If working in enclosed spaces, provide additional local ventilation.

#### Exposure controls

##### Respiratory Protection

If necessary, a properly-fitted vapor mask/respirator (organic vapor respirator) or SCBA should be used. Avoid creation of dust during use.

##### Hand Protection

Chemical-resistant or impervious gloves (such as nitrile rubber of .35mm thickness or similar) should be worn when handling this material. Contaminated gloves should be disposed of properly.

##### Body Protection

Chemically resistant long-sleeved shirts and long pants or lab coats are recommended. Contaminated clothing should be washed separately from other clothes before reuse. Footwear appropriate for the work being performed should be worn and cleaned carefully if contaminated, before reuse. Heavily soiled clothing or shoes should be discarded.

##### Eye/Face Protection

Safety eyewear and face shields appropriate for the work being performed should be used. Ordinarily, this means a minimum of safety eyewear or splash goggles.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

<b>Physical State:</b>	Solid	<b>Color:</b>	Green
<b>Odor:</b>	Pungent (sulphur)	<b>Odor Threshold:</b>	N/A
<b>pH</b>	N/A	<b>Melting Point:</b>	N/A
<b>Boiling Point:</b>	N/A	<b>Flash Point:</b>	>93°C (~200°F)
<b>Relative Density</b>	1.97	<b>Viscosity:</b>	N/A
<b>Auto-Ignition Temp.</b>	N/A	<b>Decomposition Temp.</b>	>220°C (~438°F)
<b>Solubility:</b>	Readily soluble in acetone or methanol. Not soluble in water.		
<b>VOC Content:</b>	N/A-none.		

## SECTION 10: STABILITY AND REACTIVITY

**Reactivity:** No specific data is available.

**Chemical Stability:** This product is stable under normal conditions.

**Possibility of Hazardous Reactions:** No specific data is available.

**Conditions to Avoid:** No specific data is available.

**Incompatible Materials:** No specific data is available.

**Hazardous Decomposition Products:** Thermal decomposition may produce smoke, oxides of carbon, nitrogen, metals and sulfur. Halogenated compounds and other products of incomplete combustion may also be produced.

## SECTION 11: TOXICOLOGICAL INFORMATION

### Acute Toxicity

No specific data is available.

Ingredient	Result	Species	Exposure
Reaction product:	Eyes-Mild irritant	Rabbit	100 mg
Bisphenol-A epoxy resin	Skin-Moderate irritant	Rabbit	500 microliters, 24 Hours
(Epichlorhydrin)	Skin-Severe irritant	Rabbit	2 mg, 24 hours

**Respiratory or Skin Sensitization:** No specific data.

**Mutagenicity:** No specific data. **Carcinogenicity:** No specific data.

**Reproductive Toxicity:** No specific data. **Teratogenicity:** No specific data.

**Aspiration Hazard:** No specific data.

**Specific Target Organ Toxicity (Single and Repeated Exposure):** No specific data.

**Information on the Likely Routes of Exposure:** Eyes, skin and ingestion.

**Other Information:** Material contains both titanium dioxide and talc bound into the matrix. Neither ingredient is in hazardous form under normal use. See comments re Prop 65 Hazards in **Section 15**. Avoid creation of dust.

### Potential Acute Health Effects and Related Symptoms:

See **Section 4**.

### Delayed, immediate and chronic effects from short and long term exposure:

Some persons may become sensitized after chronic exposure and may exhibit moderate to severe allergic reactions when exposed.

## SECTION 12: ECOLOGICAL INFORMATION

**Toxicity, Persistence and Degradability:** No specific data is available as to toxicity and degradability.

### **Bioaccumulative Potential:**

Ingredient	LogP <sub>ow</sub>	BCF	Potential
Bisphenol-A Epoxy Resin (Epichlorhydrin)	2.64-3.78	31	Low

### **Mobility in Soil (soil/water partition coefficient-K<sub>oc</sub>):**

No specific information is available.

**Other Adverse Effects:** No known significant effects or critical hazards.

### SECTION 13: DISPOSAL CONSIDERATIONS

Dispose of unused material and containers in accordance with national and local regulations. Ensure the use of properly authorized waste management companies, where appropriate. See **Section 8** for recommendations on the use of personal protective equipment.

### SECTION 14: TRANSPORTATION INFORMATION

**UN No's:** No numbers have been assigned. Material is not regulated for shipment for DOT, IATA, TDG, IMDG or ICAO.

**DOT/TDG Proper Shipping Name:**  
None assigned.

**Hazard Classes:** Not regulated.

**Hazard Labels:** None assigned.

**Pack Groups:** Not assigned.

**Environmental Hazards: Marine Pollutant:** No      **Hazardous Substance (USA):** No.

**Label for Conveyance:** None assigned.

### SECTION 15: REGULATORY INFORMATION

#### US Inventory Lists

<b>US Toxic Substances Control Act (TSCA)</b>	<b>8(a) PAIR:</b> Siloxanes, Silicones, di-Me, reaction products with silica. <b>8(a) CDR:</b> Not determined. <b>8(b):</b> All components are listed or exempt.	<b>Clean Water Act CW 307 CW 311</b>	Phenol
<b>SARA 302/304</b>	Phenol: SARA 302 TPQ=500 to 1000 lbs. SARA 304 RQ>1000 lbs. Material: SARA 304 RQ= 272,183 lbs./123,571 kg		
<b>MA, NJ and PA</b>	The following components are listed in these states: Soapstone, Silica, Mineral wool fiber and Titanium Dioxide (TiO <sub>2</sub> ).		
<b>CA Prop 65</b>	Silica and TiO <sub>2</sub> , if airborne and respirable, are suspected to cause cancer. Silica/TiO <sub>2</sub> in this product is bound in a matrix and is not listed. Talc containing asbestiform fibers is suspected of causing cancer. Talc in this product does not contain asbestiform fibers, is bound in the matrix and is not listed.		

#### International Lists

All components are listed or exempted on the following lists: **Canada, Australia (AICS), China (IECSC), Korea, New Zealand (NZIoC) and Philippines (PICSS).**

Other Countries: There is no listing on the public inventory, no information is available or the component has not been reviewed.

**Substances of Very High Concern:** None of the components are listed.

**Other Information:** No other information is available.

## SECTION 16: OTHER INFORMATION

### ABBREVIATIONS:

ACGIH: American Conference of Governmental Industrial Hygienists
